

Mind Play: My Virtual Reading Coach

Using the power of technology and research-based teaching/learning strategies, these reading programs will improve a student's reading ability regardless of his or her current reading level. Your student will be given a totally individualized program following dynamic assessment and you will be informed of the results and progress.

What is Mind Play Virtual Reading Coach?

Virtual Reading Coach is a computerized program recommended for grades K-4th that helps improve their overall reading skills. My Virtual Reading Coach assesses each individual child to specify and prescribe programming to meet their unique reading needs. The assessment includes the following areas: Phonemic Awareness, Phonics, Vocabulary, Grammar for Meaning, Comprehension and Fluency for students Kindergarten through grade 4, or any student needing to improve reading skills. For further information, please visit www.MindPlay.com

What is the program?

Students come into school early and train on the computer every day during the school year. Some students can complete the program in one semester; many can benefit from training the full school year. Students are also allowed to complete the program from home but may need motivation and support. Class space is limited and is based on a first come, first serve basis.

What is the cost of the program?

The cost is \$250 per student for a 1 year license.

Is financial assistance available?

Yes! Qualified families please contact Amy Isaacson for more information at 605-271-0133 or email aisaacson@sfcss.org

Can students train at home?

Yes In fact, we encourage it. The training will be challenging at times so parental support and motivation is important.

How can we sign up?

Fill out the information on the back side of this flyer and return to your school office.
